

AI Engineer Career Roadmap

Olofin Deborah (Temi) | Data Scientist -> ML Engineer -> AI Engineer

Career Starter | Python / ML / Docker / MLflow / CI-CD | 9 Projects Completed | 1 Building in Public

Generated using Chain-of-Thought Reasoning

Current Position

Career Starter

9 Projects Done | 1 Building in Public

Target Goal

AI Engineer

Full-Stack AI System Builder

Timeline

6 Months

Target: December 2026

Skill Gap Analysis

Strong Skills (Have Now)

Python Pandas NumPy Scikit-learn

TensorFlow Keras XGBoost Prophet

Docker MLflow CI/CD SQLite NLTK

9 Completed Projects | 1 Live Build in Progress

Strong ML experimentation fundamentals

Skill Gaps (Must Acquire)

LLM APIs: Claude OpenAI Gemini

RAG Pipelines Vector DBs (Pinecone, Chroma)

LangChain LlamaIndex LangGraph CrewAI

FastAPI for AI services LangSmith / Ragas

Cloud AI: AWS Bedrock GCP Vertex AI

Recommended Learning Plan

Phase	Focus Area	Key Tools & Skills	Outcome
M 1-2	LLM Foundations	Claude/OpenAI API Prompt Engineering RAG	Production RAG pipeline
M 3	Agents + Orchestration	LangChain LangGraph CrewAI Vector DBs	Live multi-agent system
M 4	AI API Engineering	FastAPI Docker LangSmith Cloud AI deploy	AI microservice API live
M 5-6	Portfolio + Job Search	GitHub portfolio LinkedIn content Interviews	First AI Engineer offer

Suggested Projects

- + Upgrade Crypto AI with LLM reasoning layer
- + RAG-powered financial document analyzer
- + Multi-agent market research assistant
- + FastAPI AI microservice + Docker deployment

Networking Strategy

- + Daily ABTalks posts to build LinkedIn audience
- + GitHub: 4 polished AI engineering repos
- + Target AI-first startups + global remote roles
- + Engage AI engineering community on X/LinkedIn

Monthly Milestones

Month	Focus	Key Deliverable	Success Metric
Jun 2026	Prompt Eng + LLM APIs	ABTalks 60-Day done + API portfolio live	Day 60 complete, GitHub live
Jul 2026	RAG + Vector DBs	Working RAG system on financial/crypto data	Deployed RAG app public
Aug 2026	Agent Frameworks	Multi-agent system with LangGraph / CrewAI	Agent running in prod
Sep 2026	AI API Engineering	FastAPI AI microservice on cloud + docs	Live API endpoint
Oct 2026	Portfolio Polish	4 AI repos + LinkedIn case studies written	500+ LinkedIn followers
Nov-Dec 26	Job Search Sprint	Applications + interviews + offer stage	First AI Engineer role

Immediate Next Actions (This Week)

- Complete ABTalks Day 1 + Day 2 deliverables and publish poster + LinkedIn post today.
- Add a Claude API reasoning module to the Crypto AI Intelligence System.
- Set up LangChain + Chroma locally and build your first RAG prototype on crypto data.
- Create GitHub "AI-Engineer-Portfolio" repo and commit existing projects with clean READMEs.
