

DEBORAH OLOFIN

Data Scientist & Machine Learning Engineer | AI Systems | NLP | Deployment

deboraholofin43@gmail.com | linkedin.com/in/deborah-olofin | github.com/Mi-kami | mi-kami.github.io

PROFESSIONAL SUMMARY

Data Scientist and Machine Learning Engineer with a Computer Science degree and a production ML system currently serving real users. Delivers across the full stack: data engineering, feature engineering, model training, evaluation, and deployment. Experienced in deep learning, NLP text classification, and time-series forecasting. Seeking remote AI/ML roles where end-to-end ownership and shipped systems matter.

TECHNICAL SKILLS

Languages & Libraries: Python, SQL, Pandas, NumPy, Scikit-learn, TensorFlow, Keras, NLTK, Matplotlib, Seaborn
ML & Modelling: Time-Series Forecasting, Classification, Regression, Clustering, NLP, Feature Engineering, Model Evaluation (MAPE / MAE / RMSE / F1)
Deployment & Tools: Streamlit, Docker, MLflow, SQLite, Git, GitHub, Jupyter Notebook, Google Colab, CI/CD
AI Tools: Claude, GitHub Copilot, Jupyter AI | **CS Fundamentals:** Algorithm Design, Data Structures, Database Systems

EXPERIENCE

Data Science Intern | Codveda Technologies (Remote) | Apr 2026

- Completed 6 end-to-end data science projects spanning EDA, regression, classification, NLP sentiment analysis, and neural network design across structured, tabular, and text datasets.
- Delivered production-quality Jupyter notebooks with full documentation, visualisations, and analytical commentary for each task.

IT & Data Intern | Staco Insurance PLC | Nov 2023 – Mar 2024

- Administered enterprise database systems with role-based access control in a regulated financial services environment.
- Contributed to internal web development projects; gained exposure to enterprise system architecture and networking fundamentals.

PROJECTS

Early Warning Food Price Monitor – Northeast Nigeria | Team Lead & Lead Data Scientist | Oct 2025 – Mar 2026

- Engineered a master dataset of ~2,846 observations from 50,000+ raw rows across 13 states, 7 commodities, and 8 years; integrated sources from WFP, CBN, NBS, ACLED, NIMET, and FAO.
- Built and evaluated SARIMA, SARIMAX, XGBoost, and Facebook Prophet; deployed production Streamlit system with avg. MAPE 30.8% (best: 14.7%); 11 of 13 commodity-state combinations production-ready.

Crypto AI Intelligence System | Personal Project | Apr 2026 – Present

- Built a live multi-source cryptocurrency data ingestion pipeline (Phases 1–2 complete); integrating ML prediction pipeline (Phase 3). Stack: Python, SQLite, MLflow, Docker, Railway, Streamlit, CI/CD.

Feedforward Neural Network – MNIST Classification | Codveda Internship | Apr 2026

- Designed and trained a multi-layer dense network (ReLU, dropout, batch normalisation, softmax) using TensorFlow/Keras; achieved 97.97% test accuracy vs. 92.49% baseline — a 5.48 pp improvement.

NLP Sentiment Analysis System | Codveda Internship | Apr 2026

- Built a 5-class text classification pipeline on 732 samples using TF-IDF vectorisation, stratified fold validation, and three classifiers (Logistic Regression, Naive Bayes, Random Forest); evaluated via macro-F1, precision, and recall.

EDUCATION

BSc Computer Science (Second Class Upper) | Olabisi Onabanjo University | 2021 – 2024 | CGPA: 3.78/5.00

AWS AI & ML Scholars Program | AWS Skill Builder | Jun 2026 – Present

ML Engineering Career Track | DataCamp | Apr 2026 – Present

Applied Data Science Lab | WorldQuant University | Nov 2025 – Present

CERTIFICATIONS

- Data Science – TS Academy (Apr 2026) | Credential ID: TSG2BTVKYE39LK
- Data Science Mathematics – Duke University / Coursera (Nov 2025)
- Python Programming Intermediate – DataCamp (Nov 2025)
- Introduction to Python – DataCamp (Nov 2025)
